

ABDULROHEEM SANNI

Full Stack Web Developer

Lagos, Nigeria | (+234) 803 512 0129 | lanresanni0@outlook.com | github.com/Larrie02

PROFESSIONAL SUMMARY

Full stack web developer with a strong foundation in React, Tailwind CSS, Framer Motion, Node.js, Express, Prisma, and MongoDB/PostgreSQL, having completed TechCrush's Backend Development program (Node.js/Express track). Builds production ready, design conscious web applications end to end from responsive, animated front ends to authenticated APIs and relational/NoSQL data layers. Brings a background in Biochemistry that translates into rigorous analytical thinking, structured problem solving, and disciplined attention to detail. Comfortable working independently or within distributed teams, and known for shipping polished, real world solutions rather than generic templates.

TECHNICAL SKILLS

- **Frontend:** React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Framer Motion, Responsive Web Design
- **Backend:** Node.js, Express.js, Prisma, RESTful API design, JWT Authentication, Nodemailer
- **Databases:** PostgreSQL, MongoDB, Mongoose, relational data modeling
- **Tools & Workflow:** Git & GitHub, VS Code, Vite, Vercel, Render, Netlify, GitHub Pages, Hostinger, Namecheap
- **AI & Productivity:** Generative AI tools & applications, prompt engineering, data literacy with AI, AI-assisted content & marketing workflows
- **Other:** Microsoft Excel (data handling & reporting), Word & PowerPoint, Figma / Framer X (UI prototyping)

FEATURED PROJECTS

TowMate Lagos: full stack, on-demand roadside rescue and towing dispatch platform for the Lagos market.

- Built with React, Tailwind CSS, and Node.js/Express, featuring haversine based partner matching, role based auth, and a seeded Lagos pilot corridor dataset.

NutriScan: Nigerian first nutrition intelligence platform.

- Delivers meal planning, water tracking, allergen filtering, and a custom nutrition scoring algorithm grown from an MVP into a full stack system.

NexaPay: multi currency fintech dashboard supporting customer, merchant, and admin roles with distinct permissions and views.

- Led a full bug fixing audit resolving 25 issues spanning JSX syntax errors, Rules of Hooks violations, provider wrapping order, and session-state bugs hardening the app for production.

Akmos: full stack e-commerce clothing store with a JWT authenticated admin panel for product and order management.

- Deployed the application across Render and Vercel, managing the full build to production workflow.

StayNest: Airbnb style luxury apartment rental platform designed for FIFA World Cup 2026 visitors.

- Supports both crypto and credit card payments.

School Record Management API: collaborated with a teammate on a TechCrush group capstone.

- Built teacher, class, subject, and result management modules with a Nigerian secondary school grading scale and Nodemailer email integration.
- Converted the codebase from CommonJS to ESM and packaged an independent member-scope deliverable.

LSM Rescue & Quiz Generator: upgraded and deployed the LSM Rescue static site to GitHub Pages with a custom branded favicon and documentation.

- Built a Quiz Generator application as a capstone project demonstrating dynamic content generation and interactive UI.

PROFESSIONAL EXPERIENCE

Intern Clinical Biochemist — *Nigerian Army Reference Hospital, Yaba – Lagos, Nigeria* Jul 2023 – Oct 2023

- Handled digital and manual record keeping of test results and inventory data, strengthening structured data handling habits later applied to backend and database work.
- Supported process optimization in laboratory operations, demonstrating discipline and independent task execution.

Intern Clinical Biochemist — *All Souls Infirmary Hospital – Lagos, Nigeria*

Jun 2022 – Sep 2022

- Managed and documented laboratory data accurately, strengthening analytical and reporting skills relevant to tech and data roles.
- Followed structured workflows and quality standards, and collaborated effectively within multidisciplinary teams.

EDUCATION & CERTIFICATIONS

Backend Development Program (Node.js/Express.js) — *TechCrush*

2026

B.Sc. Biochemistry — *University of Lagos*

2018 – 2024

ND Science Laboratory Technology — *Yaba College of Technology*

2016 – 2018

Certifications: Responsive Web Design, Generative AI Tools & Applications, Data Literacy with AI, Prompt Engineering, Social Media Marketing with AI

SOFT SKILLS

Self-motivated & disciplined remote worker • Fast learner • Strong written communication • Problem-solving mindset • Time management • Attention to detail
